

Nothing Beats A

Bally has been providing for the commercial and institutional markets for over 75 years. From standard Walk-In Coolers and Freezers, Blast Chillers, and Modular Structures to large Refrigerated Buildings, Bally provides non ozone-depleting insulated urethane panels backed with a 10 year warranty on construction. A qualified team of expert factory representatives and inside sales personnel follows your product from consultation to construction.

Refrigerated Buildings

- Deliver the maximum in strength, convenience and economy.
- Install quickly & maintenance-free.
- Finishes: Smooth White Glvanized steel and aluminum, Stainless Steel, and Galvanized steel; Stucco-embossed Galvaume, Aluminum, and Stainless Steel; Stucco-embossed White or Stand-tan galvanized steel. Custom colors and coatings are available.
- Choose from a range of refrigeration systems to fit your specific needs.

Walk-in Coolers and Freezers

- 4", 5" or 6", foamed in place, tongue and groove, non ozone-depleting urethane panels reduce construction & energy costs.
- Over 10,000 designs, with a variety of panel thicknesses, floors and door options.
- Bally Walk-ins are quick to install, easy to relocate and fully expandable.
- EISA compliant.

Northwind Blast Chillers

- Northwind Blast Chillers process food quickly and safely through the "danger zone" which minimizes the risk of foodborne bacterial contamination.
- Optional monitoring features let you document safe food preparation practices and satisfy all regulatory reporting requirements.
